

## **EMS 4.2 Environmental Policy**

Commodity Components International, Inc. is committed to protecting the environment through maintaining an environmentally conscious workplace and continual improvements in our operations, products and services relative to the ISO 14001 standard.

It is CCI's policy to:

- #1: Prevent or reduce pollution to air, land and water through programs that reduce environmental impacts and also conserve natural resources.
- #2: Ensure that environmental management is one of our highest corporate priorities.
- #3: Understand and commit to comply with legal and other requirements mandated by our state, federal and local governments, as well as our customers and suppliers.
- #4: Review environmental objectives, targets and set guidelines for reduction of environmental impacts.
- #5: Evaluate the effectiveness and continually improve our Environmental Management Systems, educate those working for on behalf of the company where it is applicable to meet legal and other requirements.

This program shall be fully documented, consistently reviewed and made available to all employees and the public. An ongoing internal and external audit program will be implemented and coordinated by the Quality Manager.
