

Quality Policy

QMS 5.2

Commodity Components is committed to continuous improvement through ongoing education, training and through internal and external reviews of the quality management system. CCI shall supply internal and external interested parties the highest level of commitment in delivering satisfaction and will meet all contractual agreements be providing the best possible product, service and delivery.

The quality policy is presented, discussed and distributed to all new employees in their initial training session. The quality policy will be posted throughout the building and on Documented information retained by the quality department and in EPDS.
